1. The following is an examiner's statement of reasons for allowance: The prior art fails to teach or suggest the specific siloxane resin as claimed, specifically one having the required a, b, c and d values in combination with the specific X group. There is nothing that would lead the skilled artisan to select such specific ranges for each subscript from the prior art teachings. The Examiner notes that the "X" reference cited in the International Search Report corresponds to the Sakamoto et al. reference cited in the previous office actions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
